## Wedding of the Year

**Fergat Becks and Victoria, we have our very own celebrity couple right here on Tenerife.**

I managed to get down to Eugene's bar on Friday to wish Mike and Charlotte Carlton all the very best on their marriage (which took

place in Cyprus earlier this year).

The ever-popular Mike has made many friends in Tenerife and the guest list read like the Who's Who in the entertainment world over here. You had some of the

island's top cabaret artists, the Island's up and coming wannabes and even a few has beens - which all made for a good party.

For me, I also managed to bump into a few people I haven't seen for a long time.

One was Junior Jones - the last time I saw him was two years ago. Don't forget mate and give me that phone call.

Another artiste I bumped into (or was it she who bumped into me a few times) was the lovely Dee Daniels. I don't know who

got p\*\*\*\*ed first, you or m sweetheart!

I did ask Dee when it will be her turn to get married to George Pena - that will definitely make for a good 'un. Come on, George, pop the question!!!

Anyway, getting back to the party, congratulations to both Mike and Charlotte for a good do. And, as usual, I was dragged away early by the missus and left them all the worse for wear at about 3 o'clock and at that stage most were still standing. I wish I could have stayed longer, then I would probably have had a lot more to write about.

Once again, congrats to Mike and Charlotte, have a lovely life.
